HEADS UP:

It has been brought under our attention that there are an international man and woman doing their rounds on the farms.

They are apparently shooting a documentary on Farm Workers in the Valley.

They are asking unethical questions to workers and changing the angle to a negative.

Be careful and avoid where possible.
WOSA has been informed.

.....

Dit is onder ons aandag gebring dat daar n internasionale man en vrou die rondte doen op plase. Hulle film blykbaar n dokumenter oor Landbouwerkers.

Hulle vra vrae aan die werkers, maar hulle is slim en verdraai die antwoorde sodat dit n negatiewe konnektasie het.

Wees versigtig en vermy waar kan.
WOSA is in kennis gestel.
